Support Our Work

TGEU is the leading trans-led organisation in Europe and Central Asia, the only one that bridges local activists, regional policymakers, and global institutions at this scale. Our work makes the struggles and needs of trans people visible, legitimate, and impossible to ignore.

How TGEU supports trans rights

TGEU is the largest trans-led organisation focused on trans rights in Europe and Central Asia. We organise, advocate, and research to support others in their work.

Advocacy

TGEU advocates for laws and policies that protect and support trans people. In 2022, we received the International Activism Award from the Ministry of Equality in Spain for our work on legal gender recognition. In 2023, we received the European Civic Forum award.

We also provide advocacy materials and tools. These help local activists and policymakers pass laws that protect and support trans people. Our legal gender recognition toolkit was used by policymakers in Spain, Denmark, Croatia, Sweden, Belgium, and the Netherlands.

Finally, we’re also active in making HIV research, prevention, and care more trans-inclusive.

Community

TGEU invests in building resilient and sustainable trans communities and movements. We provide a strong and diverse network of trans activists for our members. We also provide capacity building and skill-sharing opportunities. This includes the chance to sign up for one-on-one sessions with TGEU’s staff, as well as workshops throughout the year.

Every two years, we also host the largest gathering of trans activists in Europe and Central Asia, the European Trans Council.

Research

TGEU performs and publishes essential research. This research uncovers key issues and needs of trans communities. We make this verified data publicly available to support activists and policymakers in creating laws and procedures that protect trans lives.

We have three flagship research projects:

- Trans Murder Monitoring – this research tracks the numbers of trans and gender-diverse people murdered globally.
- Trans Rights Index & Map – this legal mapping project tracks trans rights across 54 countries in Europe and Central Asia. It allows a clearer picture of progress and regress, year-by-year.
- Trans Health Map – the project maps the access and availability of trans-specific healthcare in the EU.

All of our work is geared to creating legal, social, and political change to improve the lives of trans people. Help us continue to do this by donating to our ca

How to donate

Help us continue our work. We accept donations via:
