# Trans Murder Monitoring 2015

campaign, protection from violence and hate, trans murder monitoring

Transgender Europe's Trans Murder Monitoring (TMM) project – initiated in April 2009 in order to systematically monitor, collect, and analyse reports of homicides of trans and gender-diverse people worldwide – launches an update for IDAHOT 2015 so as to assist activists worldwide in raising public awareness of hate violence against trans and gender diverse people. The infographic summarises data from the update.
