Anti-trans Violence Reporting Tool: Uwazi Guidelines for Trans Rights Advocacy

publication, protection from violence and hate, advocacy resources

Uwazi is an innovative online platform for data management. It is designed for:

- Human rights advocates
- Researchers
- Organisations

The tool makes sensitive data and documents related to human rights easier to:

- Manage
- Analyse
- Collaborate
- Share

Download the guide

What's in this guide?

This report provides a guide on how to use Uwazi to get the most from your data. In addition to an overview of the platform, you can find dedicated sections on:

- Getting Started with Uwazi
- Document Management: Uploading and Organising
- Data Analysis and Visualisation
- Best Practices for Document Security and Privacy

There are also resources to learn more, and two real-world case studies. These cover how TGEU uses Uwazi for our Anti-Trans Violence and Trans Murder Monitoring projects.

Who is this guide for?

This guide is specifically designed for human rights advocates collaborating on TGEU's projects – the Anti-Trans Violence and Trans Murder Monitoring projects.

If you would like to become a collaborator on these projects, please reach out to amanita@tgeu.org.

However, this information can be useful to any human rights defender using Uwazi or who works with a lot of sensitive data.
